SUMMARY

I'm a second-year BCA student with a strong passion for coding and web development. I enjoy building clean, responsive websites using HTML, CSS, and JavaScript, and I'm always excited to learn new technologies. I love taking on creative challenges that blend design with functionality and help me grow as a developer. I'm now looking for an opportunity to apply my skills, learn from real-world experience, and contribute meaningfully to a team.

WORK EXPERIENCE

Data Entry & Backend Operations Executive
S.H Online Services

Feb 2023 – Present

- Processed and verified over 100+ customer application forms daily, ensuring data was accurately entered into the system with a 99% accuracy rate.
- Scanned, organized, and digitized physical forms for backend processing, maintaining proper data flow and reducing manual errors.
- Utilized computer tools to manage and clean large datasets, which helped streamline operations and improved overall efficiency by 25%.
- Ensured timely and accurate storage of customer information in the internal database, supporting smooth documentation and record management.

TECHNICAL SKILLS

- Web Development: HTML5, CSS3, JavaScript (Intermediate)
- Data Programming: Python, SQL(Intermediate)
- Tools & Platforms: Visual Studio Code, Chrome DevTools
- Other Skills: Basic Debugging, File Management, Windows OS

EDUCATION

Bachelor of Computer Application
SMT Hinduja College

August 2023 – July 2025

HSC in Commerce
Bhausahab Hiray College

Jul 2020 – May2023

PROJECTS

I designed and developed a website for [ShivsahyadriPratishthan](#), a non-profit organization that works to provide computers and digital access to schools that can't afford them. I built the website from scratch using HTML, CSS, and JavaScript, focusing on creating a clean, user-friendly design that works well on both desktop and mobile. I also made sure the site looked good across browsers, and clearly communicated the organization's vision. This project not only helped me improve my web development skills but also gave me the chance to contribute to something meaning.
